

Talbro's

SEALING MATERIALS

Talbro's Sealing Materials is one of the largest manufacturers of Anti Vibration Pads, Rubber Mattings and Sealing Materials like cork rubber material and and rubber molded gaskets. Our beginnings can be traced back to 1982 when we established a cork rubber plant to feed the gasketing industry.

Since then we have diversified into manufacturing a wide range of sealing materials as well as a soft gasket cutting operation which is expanding rapidly.

Headquartered out of India with a warehousing facility in the US and distributors for our products located globally, our company belongs to the BNT Talbro's Group which comprises of 6 companies with 14 locations and over 1700 employees.

Our anti-vibration range of products is described below and are available in sizes from 2"x 2" to 24"x 24" with everything in between, the range of hardness of our products go from 30 Shore to 90 Shore.
