

Talbros

SEALING MATERIALS

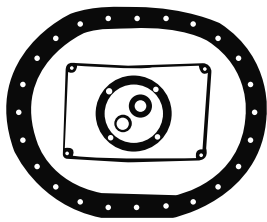

Talbros Sealing materials has been supplying various gasketing products and materials to companies that assemble and make gasket kits for over almost four decades now

Thanks to our various customers in Asia, Europe, North and South America we are already tooled up for most applications for those markets

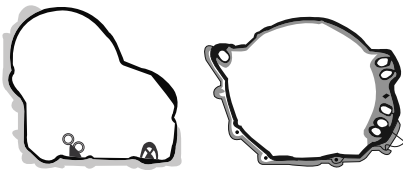

Our gaskets are used by companies that specialize in making engine, transmission or filter kits

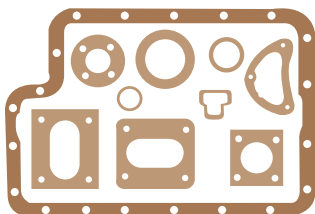

The products we support
kit manufacturers with are :

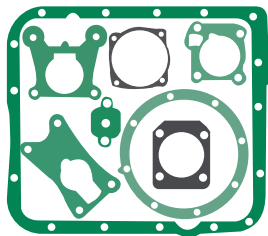

Rubber Gaskets
using various polymers

Rubber-metal Edge Bonded Gaskets with aluminum or steel as the carrier and AEM/ACM/FKM or even Silicone as the polymer

Cork rubber gaskets
in various material grades

Non-asbestos gaskets
in various material grades
